

CITY OF GENEVA
PAVER BRICK PROJECT

The cost per brick is \$50.00. Payment must be made at the time of purchase. Bricks will be placed at City Hall.

The maximum lines of print on each brick is three (3). The maximum number of letters/spaces for each line is 18. The more letters used the smaller the print will appear on each brick.

Bricks will not be ordered and placed until at least twenty (20) bricks have been ordered.

Please fill in the spaces below with the wording you would like engraved on your brick. Only one (1) letter is allowed per box.

The person purchasing the brick must complete this section; the City will not fill in the spaces and this cannot be completed over the phone. If you decide to change wording prior to an order being placed you must complete a change form, this cannot be done over the phone.

Correct spelling is the responsibility of the person purchasing the brick. Please print carefully and legibly in the spaces provided. Your form will be provided to the brick company for engraving. The City will not be responsible for errors caused by the brick company's inability to read your handwriting.
